

EXCELLENCE IN ORTHODONTICS

DIPLOMA

This is to confirm that

MUDr.Sabo Marián

has participated in the seminar

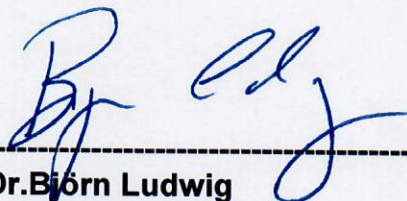

SPACE MANAGEMENT

held on 13th of November 2009 in Piestany, Slovakia

The seminar dealt with the following subjects:

- How to ideally combine modern orthodontic mini-screws with traditional appliances which are used to gain space
- Diagnostics and 3D analysis (advantage of 3D plaster models and CT scans)
- New approaches how to get stable anchor points when using rapid palatal expanders
- How to get a real skeletal expansion with simultaneous alignment
- Simple and safe placement of mini-screws
- Hybrid RPE for rapid palatal expansion
- Frog distalizer for distalizing upper molars
- Distalization of molars by using non-compliance distalization appliances (Frog appliance) which are mini-screw supported
- Clinical cases presentation

(7 hours of continuing education)

Dr. Björn Ludwig
(seminar speaker)
